

Outstanding Performance, On Slab and Off.

Handle a wide variety of terrain, without noise and fumes. With the standard oscillating axle, 35 percent gradeability, rugged all-terrain tires and available all-wheel drive, you'll be able to go off the slab and into the mud with the LE Series scissor lifts.

Both models will fit through standard double doorways to get you to and from the work site.

The efficient direct electric drive system gives you the muscle you'll need for demanding jobs; and you'll get double the duty cycles of other electric scissors with the deep cycle batteries.

Full-time automatic traction control and an oscillating axle boost rough-terrain productivity.

LE Series ADVANTAGES

- Double the duty cycles of competitive electric scissor lifts.
- All-wheel drive provides superior performance indoors or out.
- 1,000 lb capacity (3369LE), 800 lb capacity (4069LE) on the platform and 250 lb on the platform extension.
- Zero emissions and quiet operation for sensitive environments.
- Multi-power option features an on-board diesel-powered generator with improved fuel efficiency for lower costs.
- Platform heights of 33 ft (3369LE) and 40 ft (4069LE) provide working heights of 39 ft and 46 ft respectively.

Electric Powered Aerial Work Platforms

SPECIFICATIONS
